Celebrate bees with these wonderful products

### BEE HEALTH PROPOLIS

A natural ingredient with antibacterial properties, Bee Health Propolis Cream is a really convenient way to soothe skin irritations, dry skin and blemishes. Collected by honey bees from buds and trees containing tree resin, essential oils, waxes and bioflavonoids, propolis offers an array of benefits for many ailments. It's also one of nature's richest sources of bioflavonoids for immune support. Bee Health guarantees the bioflavonoids present are naturally-occurring flavonoids, with no synthetic substances added. This unique natural substance is subject to tests to ensure its potency and quality.

### THE HIVE HONEY SHOP

Have hay fever? Try the award-winning HayfeGUARD® local English honey with ProPollen Factor Plus, made by fourth generation British beekeepers. It's fresh, local, raw, unpasteurised and coarse, filtered honey that contains a multitude of local pollen grains and fresh royal jelly, to aid health and wellbeing. It's suggested it can help hay fever by bringing your immune system into contact with the plant source you're allergic to, which may in turn help you to build up a natural resistance to the irritant and alleviate your hay fever.

**£14.95 for one 30-day-supply pot**
